Acacia Kindergarten Philosophy

Acacia Kindergarten strives to provide an enriching and nurturing play based learning environment that fosters social, emotional, intellectual, physical and creative growth. We aim to work in partnership with families, agencies and services to provide an inclusive learning environment for our diverse kindergarten community.

Values
Relationships, Respect, Responsibility

Vision
Children are empowered to develop the skills and dispositions for life-long learning.

At Acacia Kindergarten we believe:
• Children are capable and competent learners.
• Children have the capacity and right to initiate and lead their own learning.
• Children are unique individuals.
• Children are to be given opportunities to develop empathy and respect for living things.
• Children learn best through play

We will provide children with experiences that are: play based, high quality, engaging, challenging, experiential and responsive to emerging interests within a safe, welcoming and respectful learning environment.
